- ChatGPT, Claude

SOFT SKILLS

- Project Management & Leadership
- Communication
- Attention to Detail
- Multi-tasking
- Creativity & Adaptability
- Flexibility

DON JASPER DEODORA

COMPUTER SCIENCE STUDENT · FRONT-END & MOBILE DEVELOPER

An aspiring Front-End Developer with a strong interest in web design and user experience. BS Computer Science student at PHINMA University of Pangasinan who has led and built Android, web and machine-learning projects, from campus ordering apps to an offline Filipino Sign Language learning app. Eager to learn and grow by building responsive and creative web applications.

SCHOOL & TECHNICAL PROJECTS

FSLAMES: Filipino Sign Language Mobile Education System — *Thesis Project*
Developer · Flutter, Dart, MediaPipe, TensorFlow Lite
- Developed a fully offline, cross-platform mobile app that helps pre-service teachers learn and practice foundational Filipino Sign Language.
- Features video demonstrations, quizzes, gamified progress tracking, and camera-guided sign assessment with corrective feedback.

U-Eat Ordering System — *Group Project*
Team Lead · Kotlin, Firebase, Android Studio
- Led a team building an Android food ordering system for school canteens: students browse menus, place orders, and pay through GCash, Maya or over the counter.
- Managed integration with a separate stall-owner app for order management.

Kidzo Game App — *Mobile App Project*
Project Manager · Kotlin, Firebase, Android Studio
- Managed development of a kid-friendly mobile game hub that groups mini-games by age; oversaw database integration for player profiles and guided UI/UX for accessibility and engagement.

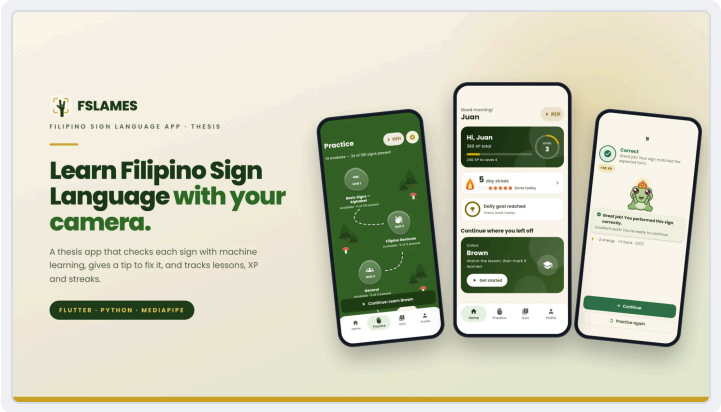

PHINMA Connect App — *Mobile App Project*
Kotlin, Firebase, Android Studio
- Android campus guide for PHINMA Education schools: students pick their school, browse programs offered by college, and use a floor-by-floor school map with room photos, room search and directions.

Moya Water Delivery — *Web System*
Front-End / UI Developer · HTML, CSS, PHP, Bootstrap, SQL
- Built the interface of a web-based water delivery system, with clean, responsive design and smooth ordering for customers managing deliveries and refill schedules.

CERTIFICATIONS & TRAINING

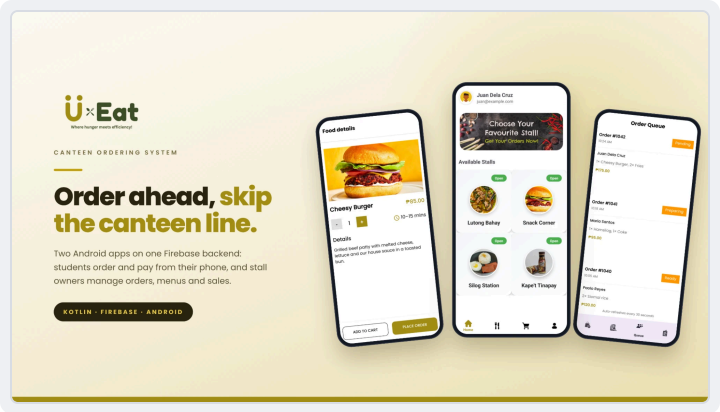

- **Zuitt Learning Institute:** Python–AWS Course (Python, Django, AWS EC2, S3, Lambda) — 80 hrs — *Jul – Oct 2025*
- **HP LIFE:** Introduction to Cybersecurity Awareness — *Jul 2025*
- **Udemy:** HTML & CSS – Certification Course for Beginners — *May 2024*
- **Udemy:** Professional Diploma in Python Development — *Jan 2024*
- **LinkedIn Learning:** Python Essential Training — *Jan 2024*
- **Google Developer Program:** 6 Android & Kotlin badges — *Feb – Mar 2025*
